### **PMC for Fun!**

This is a two day class.

Just for fun we've created an introduction to PMC course for people who simply want to play with PMC and are not yet ready to do the Diploma.

This weekend course will introduce you to PMC through some simple projects in a relaxed atmosphere. The emphasis will be on building confidence working with PMC at your own pace and focusing on fun. You'll learn how to make a pendant, a shell charm and some earrings on the first day, just to get you started. Once you've got a bit of confidence using PMC, you can begin to really play and create your own designs.

The tutor will help you to create beautiful fine silver jewellery in whatever style you choose. All the equipment you need will be provided and you can buy a PMC tool kit during the weekend if you want to continue creating as soon as you get home. By the end of the weekend you'll have enough knowledge and confidence to create unique pieces of jewellery using PMC at your own kitchen table!

This course is particularly suitable for people who need a bit more time to learn new things or who have limitations with manual dexterity. There is no pressure to produce anything and the tutor will work with individuals at their own pace to ensure they achieve their goals for the weekend.

The course cost includes 25g of PMC3 which is enough to create the basic projects. You can buy additional PMC during the weekend or bring your own PMC+ or PMC3 if you'd prefer.

Your tutor for this course will be Julia Rai

### **Things to consider before booking this course...**

This course is suitable for all levels, especially beginners and those who need additional time to learn new things or who have limitations with manual dexterity.
